

## Osaka University Virtual Study Abroad Program 2024 Application Guidelines

### 1. Program Overview

Osaka University Virtual Study Abroad Program was launched in response to immigration and travel restrictions due to COVID-19 in October 2021. The program provides online lectures for students at overseas partner universities.

This program does not only provide students at overseas partner universities the opportunity to attend lectures without travel, but also fosters international awareness of students and sparking motivation to study abroad. We decided to continue this program as a new form of international exchange after the pandemic subsided.

We will deliver regular courses from Osaka University in real time and on-demand basis. Students from overseas partner universities who participate in the program will be enrolled at Osaka University as "Special Auditor" and those who meet the prescribed requirements listed in the syllabus will be able to earn credits from Osaka University.
